The Graduate School of Computational Engineering at Technische University Darmstadt was founded in the scope of the excellence initiative of the Deutsche Forschungsgesellschaft (DFG). Thus, only a limited number of the most talented candidates can be admitted to the program each year. By this letter of recommendation you help us to receive a more reliable impression of the student and faciliate the decision about his/her admission. Please return the letter of recommendation in a sealed envelope to the applicant.

I know the Applicant since   from a joint project   from my lectures   other

My knowledge about the applicant allows me to evaluate him/her

very precisely   precisely   fairly well   rather imprecisely   not at all

The evaluation is based on the comparison to

Undergraduate students   Bachelor graduates   Master graduates   PhDs   others

4. Evaluation

	10 excellent (1–5%)	9 very good (5–15%)	8 good (15–25%)	7 above average (25–40%)	6/5 standard (40–60%)	4 below average (60–75%)	3/2/1 not sufficient (above 75%)
Intellectual abilities							
Expected potential within the research field							
Capacity for teamwork							
Oral expression							
Written expression							
Creativity and transfer capability							

Overall appreciation

Emphatic recommendation

Recommendation without objections

Recommendation with minor concerns

No recommendation possible

5. Remarks
